

PROVIDING QUALITY CONCRETE PRODUCTS

The manufacturing pioneers of bricks,
concrete products & accessories.

History + Heritage

BORN HERE. BUILT HERE.

Establishing the foundation to notable structures throughout human history. The heritage of brick construction dates back to ancient times. We are honoured to carry on the tradition laid by generations of brick & concrete makers in delivering construction solutions that will withstand the test of time.

**CUSTOM CRAFTED BRICKS,
CONCRETE PRODUCTS & ACCESSORIES.
A BRAND THAT'S MADE IN INDIA.**

ABOUT US

Founded in 2018, Harsha Urban Bricks & Concrete Products Pvt. Ltd. has pursued product innovation as a proficient bricks and concrete products manufacturing company hallmark. The client's trust and acceptance towards our products are a true testament to our ability that allows us to meet the demand of customers hailing from diverse residential and industrial segments. For matchless style and strong durability, choose Harsha Urban Bricks & Concrete Products for your new home, commercial projects.

WHY US?

Since its inception, HUB & C has been at the forefront of 'brick and concrete products manufacturing'. The implementation of the latest technology and frequent upgradation of our machinery has made this possible. From constant improvements in the material quality to incorporating the latest brick-manufacturing methods, all of these factors have resulted in significant enhancement in our consistency. One thing that remains unchanged is the quality and integrity, which continues to make us a preferred choice in the brick and concrete products industry for commercial and residential projects.

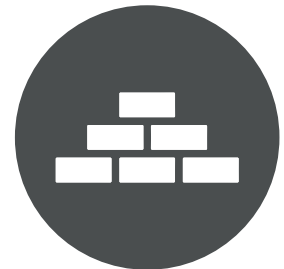

QUALITY & DURABILITY

Under the vigilance of our quality controllers, all our products undergo several quality tests to ensure best performance and high durability.

You get to choose from a wide range of custom shapes all of which are built keeping in mind specifications provided by you.

COMPREHENSIVE PRODUCT RANGE

STATE-OF-THE-ART TECHNOLOGY & TEAM

Our machines and resources are engineered by sharp minds and incorporate the latest engineering and manufacturing techniques.

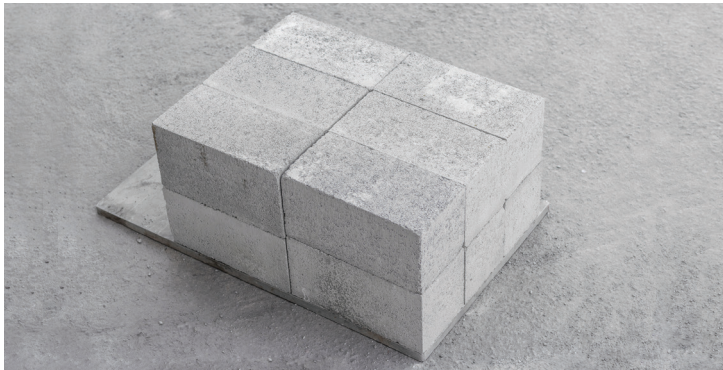

OUR PRODUCTS

When it comes to quality and value, HUB & C is able to maintain a balance like no other, simply because we believe that offering our customers the finest quality products at the most affordable price is truly essential.

SOLID BLOCKS

Sizes Specifications : 3" | 3.5" | 4" | 5" | 6" | 8"

CELLULAR BLOCKS

Superior Compression Strength.

60% reduction in cement-mortar consumption.

100% improvement in labour productivity, substantially reducing labour costs.

Environment friendly.

Complies with ISI standards.

30% reduction in plastering cost.

Fully automatic German plant, only one of its kind in India.

Advanced German curing system.

Cost Effective Blocks.

All sizes (4", 6", 8") Hollow and Solid blocks.

Perfect edges, corners and straight surfaces.

Superior strength.

Substantial reduction in mortar for joints and plaster.

Loading/unloading in crane mounted trucks.

OUR PRODUCTS

KERBSTONES

Size Specifications: Available in 2 sizes, Custom size undertaken on order basis.

- Easy assembly & laying, eco-friendly, rounded shape.
- 100% waterproof, corrosion resistant, maintenance free.
- Heavy weight, high capacity tolerant, quality standard.
- Customization facility.
- Material: concrete cement, cement concrete color gray.
- Used places: house, shop, parks, villas, outside, gardening areas.
- Highest strength.
- Highest density.
- Zero breakage guarantee until unloading.
- Lowest dimensional tolerance (Manufactured by Japanese robotic machinery).
- Available in pimple finish and fine finish.
- Available in various sizes and patterns.
- Large capacity production for quick dispatches.

HOLLOW BLOCKS

Size Specifications:
4", 6", 8".

- Reduced Structural Loads.
- Higher Construction Efficiency.
- Lower Project Cost.
- Qualify for IGBC and GRIHA credits based on use of Recycled Content.
- Reduced Joinery and Plastic Costs.
- Good Workability for Conduiting.
- Superior Compression Strength.
- 60% reduction in cement mortar consumption.
- 100% improvement in labour productivity, substantially reducing labour costs.
- Environment friendly.
- Complies with ISI standards.
- 30% reduction in plastering cost.

BENEFITS:

- Light Weight.
- Cost Effective.

PAVERS

Size Specifications: - 60mm and 80mm

Size & Shape Specification: Square | Rectangle | Zig Zag

- Available in grey, single and blended colour. (Colour customization available).
- Available in multiple sizes and patterns suited for light, medium, heavy and very heavy traffic.
- Large capacity production for quick dispatches.
- Highest strength and density.
- Lowest water absorption compared to other similar products in the market.
- Manufactured in a completely automated German machine using highly precise German moulds.

Zig Zag Pavers

Rectangular Pavers

Square Pavers

PRODUCT DIFFERENTIATION

Below given comparison analysis report will give you an insight and explain the difference between Harsha Urban Bricks & Concrete Products and the less reliable cheap ones available in the market.

INVESTOR'S CONTRIBUTION

- 1 Technology
- 2 Strength
- 3 Mortar Consumption
- 4 Water leak/
Weather proof
- 5 Life
- 6 Finishing
- 7 Load Bearing
- 8 Compression
- 9 ISI Standard
- 10 Cost Effective

An Overview of our Premises

- Leading suppliers of quality bricks, concrete products & accessories.
 - The constantly expanding product line inspires architectural excellence.
 - A fully automated modern infrastructure setup built as per the latest architectural layout.
 - Our manufacturing units are equipped with the latest German machinery and equipments that offer advanced manufacturing precision.
 - Located in a massive area with dedicated sections for each manufacturing and functional unit.
 - Spacious warehousing units for inventory management that enables us to categorically store products.
 - A dedicated team each for Quality Evaluation, R & D and Inventory Management.
 - Periodically upgraded machines, equipments.
 - Flexible, innovative and reliable transportation solutions.
 - Most innovative, easy, reliable, time and cost-effective lifting, loading and unloading solutions.
 - Delivery undertaken within 24 HOURS.
 - Free delivery service up to a proximity radius of 40kms.
 - Labour free.
